The Washington Park District would like to announce a revised Take Pride in Washington Clean-Up Day

The Washington Park District and City of Washington would like to announce a revised plan for the Take Pride in Washington Clean-Up Day that has been rescheduled for Saturday, September 12th. We will NOT be having a morning gathering; rather we will work with pre-scheduled groups to identify an area that works best for them and have them go directly to that location. We will have shirts, trash bags, and gloves available for pickup at the Washington Park District during the week of September 7th and ask that any groups pre-register to determine a location and pick everything up in advance. We will be available at the Wenger Shelter from 8:30am-9:30am for any individuals or families looking to become involved who may be looking for an assigned location.

For any questions regarding this event or to register a group, please contact the Matt Suellentrop at the Washington Park District at matts@washingtonparkdistrict.com or 309-444-9413.
