Washington Park District Fine Arts Festival Cancelled

It is with regret that we are announcing the cancellation of the 2020 Washington Fine Arts Festival. Safety during the event, the artists in attendance, patrons and volunteers was of our utmost concern. We looked at possible modifications and after discussion with local officials, evaluation of expected artist attendance, and possible event changes we feel this was the best option and hope that you can understand our difficult decision. We look forward to the future when we can safely provide these and other such events for Washington and the surrounding communities.
